Product highlights

High Pixel Density Display

The very best high density screen shows off your treasured photos with the same 'real life' rich detail and vibrant colours as high quality prints.

Rich, vibrant colours

Full colour display brings out the best in your photos with vibrant, real life colours by displaying the same full range of colours found in professionally printed photos.

Quality design and materials

High quality design and exquisite materials include a solid stylish stand, designer frame and detailed finishing that convey an impression of value and refined taste, adding lustre to the photos displayed on PhotoFrame.

Multiple viewing modes

Flexible display modes give you the freedom to display your photos one image at a time, in thumbnail mode for quick, easy searches, or to create a slideshow of your most treasured photos.

Easy USB connectivity

A USB connector is built into the device for easy and quick downloading photos from a PC.

Auto On/Off - Power saving

A timer that turns your PhotoFrame on and off at the times you choose. You can select different timeslots to fit your personal schedule and to save energy.
